“To be honest, we weren’t hoping for such a large number of visitors and, yes, the results met our expectations. It was the target customers who came to us, apparently the pandemic made its contribution and there was a lack of information. People have become hungry for this information, specifically on the equipment that we exhibit here. We are planning to take part in the next NEFTEGAZ exhibitions. For us NEFTEGAZ is the central event of every year and we cannot miss it in any way.”
